

*(Photographer Geary Rollins, image scanned and supplied by Chad Davis)*

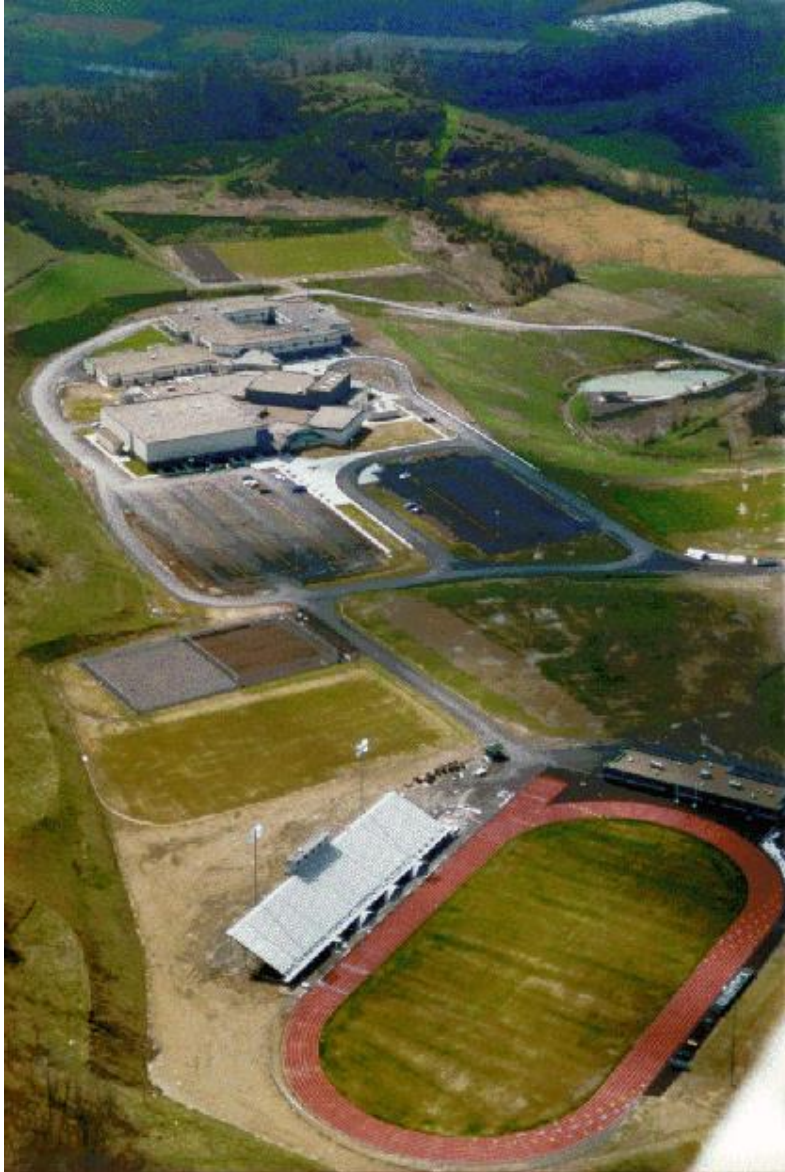

***Aerial View of School with parking areas, band practice field(right), and environmental wetlands project. Football stadium, practice fields, soccer field, and baseball field,(under construction) left out of view.***

*The Smoke indicates the beginning of construction for the new entrance road from Rt. 98 construction. This road is now fully completed.*

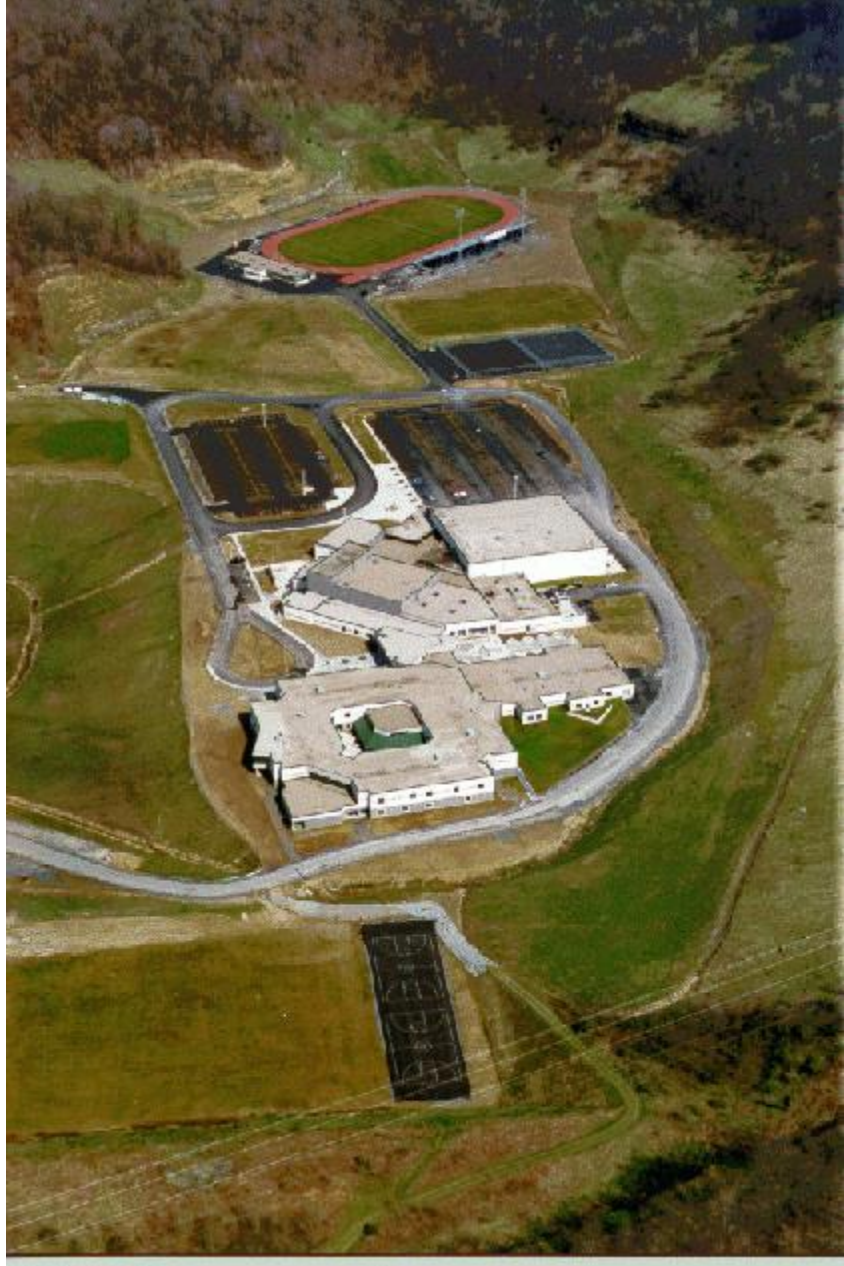

This is a picture of West side of building. All access to the building at the time of this picture was from the service road visible at the bottom of this picture.

This picture, taken from the Southeast, shows the home stands complete on the football field. The environmental study project (pond) can be seen to the right of main building.

***The afternoon sun illuminates the westerly side of Robert C. Byrd High School.***

***This picture again shows track and field prior to construction of the visitors seats, fencing and general landscaping.***
