

## Genius Hour at Adamston Elementary

Students at Adamston Elementary participate in Genius Hour. Genius Hour is a practice started by the Google Company where employees get to spend 20% of their time at work (translation about an hour) working on a project that they are interested in that will bring a benefit to their job.

In the classrooms one hour a week is set aside. Students are able to work on whatever they are passionate about. Students are able to research and use our school resources, teacher facilitation, and their own gumption to learn more.

Projects start as early as first grade. Every student has something they wonder about. Genius hour is a way to encourage students to do what they love.
