

Nutter Fort Primary

SPHERO TECH DAY

Nutter Fort Primary held a SPHERO Tech Day for 2nd grade students and a guest of their choice. Student and guest participated as a team in 3 activities involving a SPHERO, a sphere shaped robot controlled by an iPad. Students engaged in 3 coding/programming activities:

- 1) a BB* Sphero maze, obstacle course, and bowling
- 2) a boat challenge where teams created boats and drove them through water
- 3) art - students created a personal art piece to take home and contributed to an art piece to display at the school...displayed behind the group photo!

We had a blast, and look forward to our next SPHERO Tech Day in a few weeks!
