

# Nutter Fort Primary

## Jump Into January

Nutter Fort Primary Kindergarten teachers hosted a “Jump into January” night for parents and their kindergarteners. Station rotations included reading/language arts, science, math, and creativity. At each station parents were presented with strategies and received take home activities to strengthen their child’s academic skills at home. The science/math station was a highlight of the evening. Parents and students worked together to measure, mix, and enjoy ice cream made in a bag. There was positive feed back from both parents and students as they enjoyed an evening together.
